

## Sectioning commands with critical notes

This file provides examples of using sectioning command with `reledmac`. The section titles are in the line numbering, and have critical and side notes.

We use the `\reledxxx` commands, each of them in their own `\pstart . . . \pend` group.

Page breaks are manually added before chapter with `\beforeeledchapter`.

# Chapter 1

## chapter

chapter

I use git to manage some packages. I would like to add a pre-commit hook, to check if I have forgotten For now, I have a minimal pre-commit, which tests only the blank spaces at ends of lines, but not the forgotten..
